Mold-Masters® Enhances TempMaster Controller Alert Capabilities

Georgetown, ON, May 15, 2025 – Mold-Masters®, a leading developer and supplier of hot runners, controllers, auxiliary injection, and co-injection systems, is pleased to announce enhanced alerting capabilities for its advanced TempMaster M2+, M3 and M4 temperature controllers.

These controllers now support automated alerts via text message and email, helping customers stay informed and responsible, even during peak production periods. Users can easily configure how alerts are delivered and designate specific recipients, ensuring no critical notifications are missed.

Existing TempMaster controllers can be updated to support this feature, provided the unit is connected to the internet.

For additional information about this or other advanced TempMaster controller capabilities, please contact your Mold-Masters technical expert at info@moldmasters.com or visit moldmasters.com.

About Mold-Masters®

Mold-Masters® is a leading global supplier of hot runners, controllers, auxiliary injection and co-injection systems. We design, manufacture, distribute, sell and service highly engineered and customized plastic processing equipment that caters to every market. Mold-Masters is credited for patenting the first commercially viable hot runner system in 1965. Today, Mold-Masters conducts business in more than 100 countries and employs a diverse workforce that exceeds 2,000 professionals. Mold-Masters Global Headquarters is located in Georgetown, ON Canada. Mold-Masters is an operating company of Hillenbrand (NYSE: HI). www.moldmasters.com
